

October 28, 2004

Dear FCC,

I am writing this informal letter to support my Air One station that operates on FM frequency at 90.5 in Burlington, Vermont. I understand that there is new action under consideration that may prevent this national station from broadcasting in our area. I am concerned as there is no other commercial free Christian rock station in this area. Air one is a safe and relevant station to my children that supports the Christian teaching of values in our home. Please do not take action that prevents us from accessing this medium that supports our efforts to be good parents. We rely on Air One and are relying on you to do this right thing.

Thank you,

Janelle Gilbert-Fuller
